

Pentagon Reservation Secure Access Lane – Canopy Revision

Pentagon
Arlington County, VA

Submitted by the Washington Headquarters Services

Revised Site and Building Plans

Commission meeting date: September 13, 2013

NCPC review authority: Federal Projects in the Region (40 U.S.C. § 8722(b)(1))

Applicant request: Revised site and building plans

Delegated / consent / open / executive session: Consent

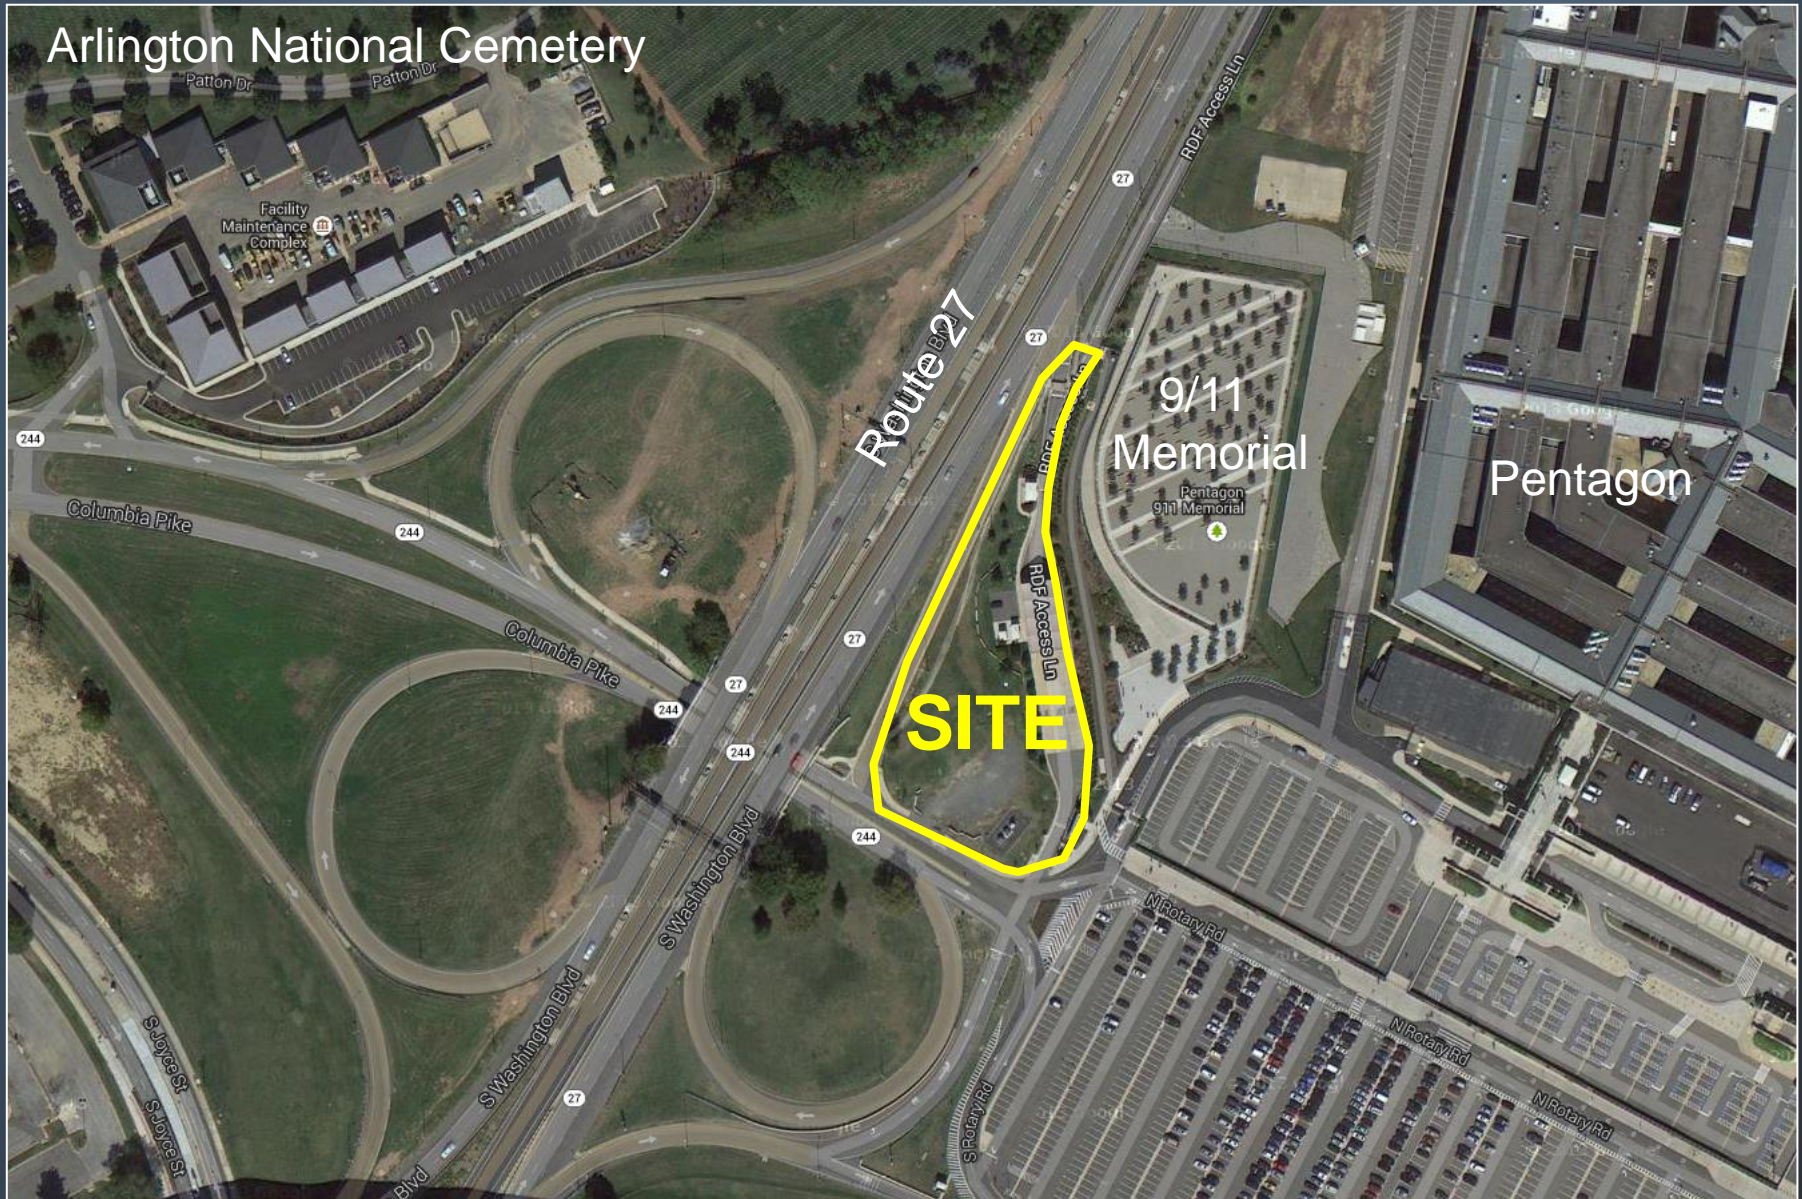

NCPC Review Officer: C. Hart

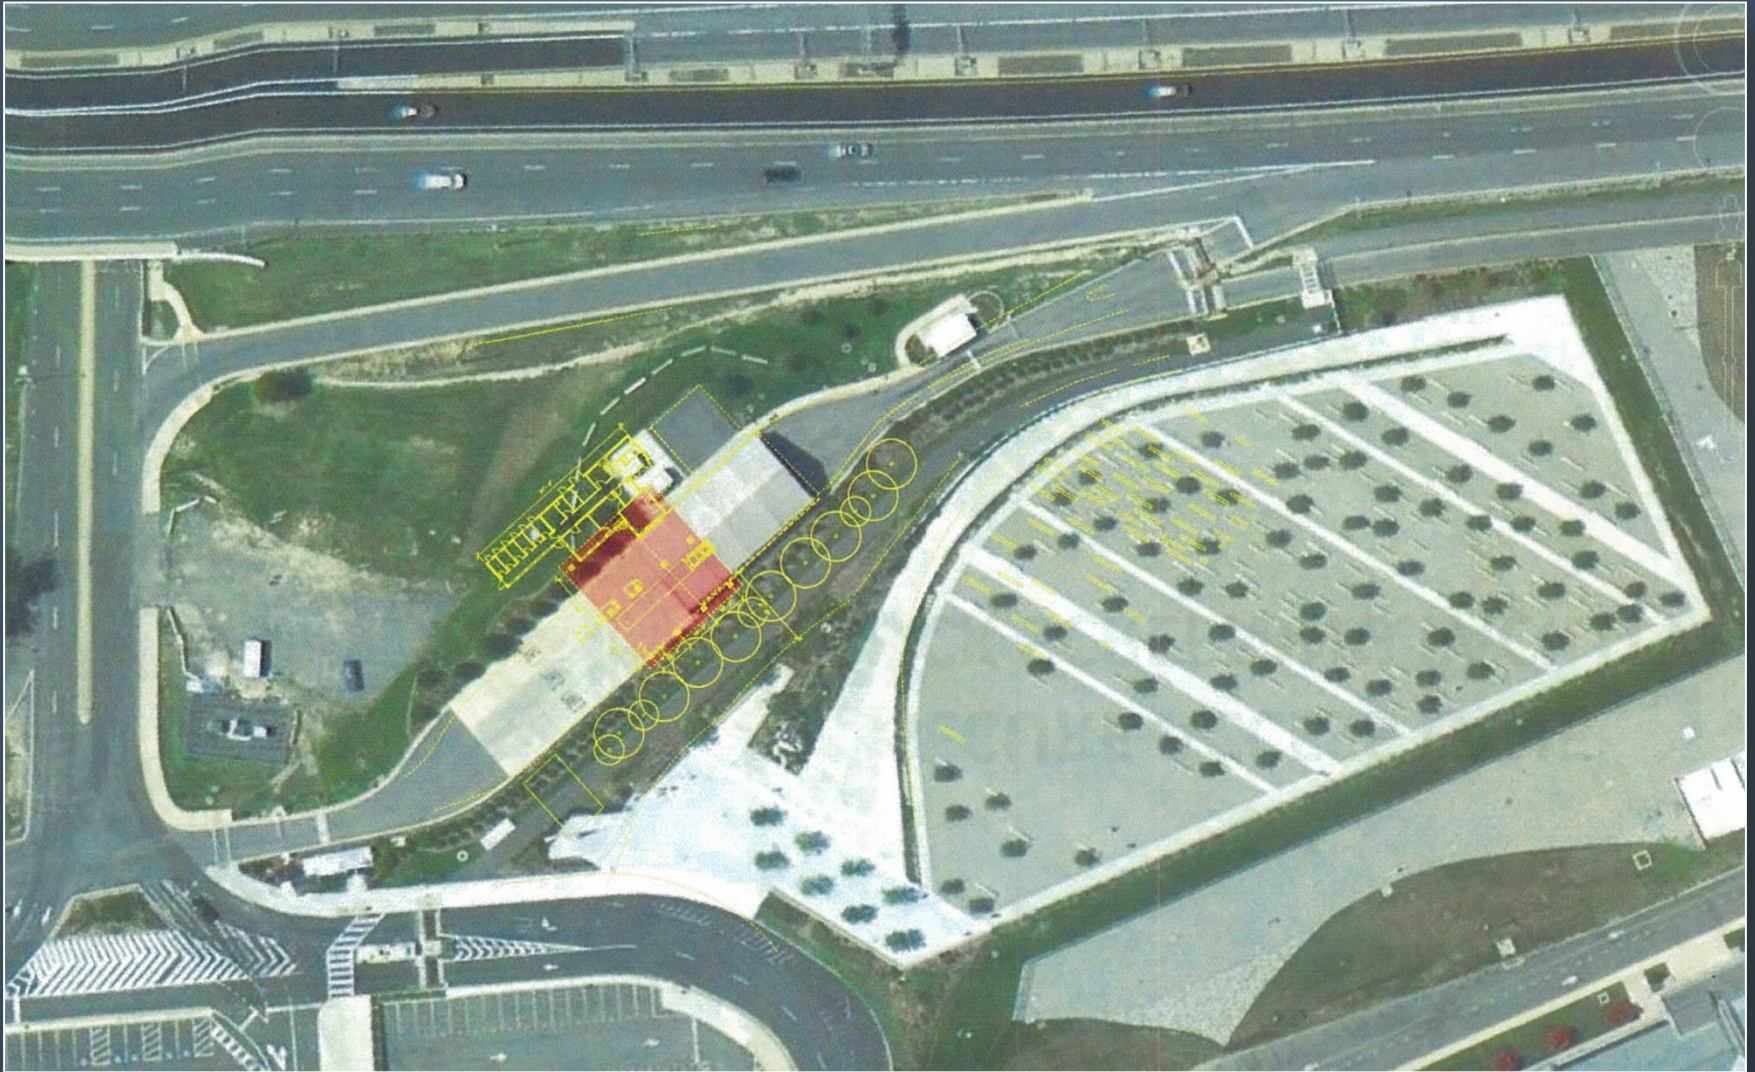

NCPC File number: 7262(6301)

Project summary:

This facility will provide a permanent screening center for processing construction and delivery vehicles into the reservation, inclusive of kennels for the K-9 officers, work space for the Pentagon Force Protection Agency (PFPA) Officers, a new rigid canopy over the vehicle screening area, perimeter fencing and a new bicycle path. This project will also establish a permanent rest room facility for 9111 Memorial visitors, replacing the temporary one.

This project was approved by the Commission at its July 2011 meeting. WHS is submitted a new canopy design - a change from the originally approved fabric canopy to a rigid canopy. WHS met with jointly with CFA and NCPC two times over the past two months but no changes to the proposed rigid canopy are possible due to funding constraints.

View from Air Force Memorial to SAL

Previous Commission action (if any):

July 2011 – the commission approved preliminary and final site and building plans for the SAL.

Analysis summary:

This project had to be redesigned because of a funding issue. The originally proposed canopy was a custom one and was too costly and WHS is now proposing this current design. Have met with NCPC staff and CFA staff to reduce visibility of the canopy even further and to add some of better design, more in fitting with the Pentagon Transit Center canopies, but WHS was not able to do this.

Outstanding issues (if any):

None.

NEPA and NHPA Section 106:

NEPA and NHPA are complete.

The Commission:

Approves the revised preliminary and final site and building plans for the SAL canopy.
